Grain Market, Nankana Sahib, Pakistan

Summary

MEAN-Stack Ionic/Angular Developer with 4+ years of proven experience at UssCyber, Appolek, Oxygen Soft, and Fiverr in helping companies create and maintain a better code base for reusability. Always follow and find the best way for problem-solving. Capable of continuous learning from senior developers. Passionate about learning and development with a desire to apply skills on a larger development team. Always Eager to tackle more complex problems and continue to find ways to maximize user efficiency. Always tried my best to deliver the stuff before the deadline and make sure everything is implemented according to the expectations.

Projects

XLiquidus

<https://play.google.com/store/apps/details?id=com.usscyber.xliquiduss.app>

About Project:

XLiquidus is an intuitive platform for crypto investors of all levels looking to buy and liquidate cryptocurrencies. XLiquidus is the liquidation app of choice from WSCE Token and Exchange holders.

My Roles:

- Design and develop REST FULL APIS in Node js.
- Integrating APIS in Ionic Angular apps.

- Design and Develop UI in Ionic Angular Framework.
- Delivering comprehensive front-end software.

CitiMovers

<https://play.google.com/store/apps/details?id=com.waldsolutions.citimovers>

About Project:

The smart way to move at low costs. It's developed in the IONIC Angular framework with the Firebase backend. It helps users to move from one place to another place with their assets.

- Design responsive UI in Ionic Angular
- Implement and manage data in Firebase
- Firebase database as backend
- Publish and maintain the app in the Google Play store and App Store

Nightscard: Nightlife & Offers

<https://play.google.com/store/apps/details?id=com.nightscard.cla>

Nightscard helps you unlock the best nightlife experiences in your city. Using Nightscard means you're part of the ultimate members club, helping you explore and unlock the best nightlife your city has to offer. Whatever you want from your night, we make it easy for you to find the best spots in your city. What's more, we're partnering with numerous venues to offer you amazing discounts and offers. So whether you've just been paid, or your payday has come and gone already, you can be sure that you never miss out when you use Nightscard.

Tecca Ionic angular framework Hybrid app

<https://cheery-zuccutto-cdcbbba.netlify.app/login>

Tecca app is a hybrid app to manage Teacher and student activity. It helps teachers and students to assign and submit activities more easily and digitalized way. A teacher can assign activities to their students. The students can check and complete the activity and submit it to the teacher for review. The teacher can review the activity and assign the next one.

Duchenne Hybrid App

Duchenne app for managing the staff of an office.

I developed this app for my Fiverr client. He is from Germany.

Carwash Hybrid mobile App

The Carwash app is developed in the Ionic angular framework with a PHP backend. It helps the carwash shop owner to increase their business with an online booking system. The user can select the service, pick a time and go to the car wash shop to wash their car. In this way, they can save too much time and go to the car wash shop when they feel free.

Restaurant Management

Hotel management in PHP Laravel web app. It helps restaurant owners to increase their business and productivity. The owner can add the items that have in their hotel and many more actions.

The users can select the items, book an order or go to the hotel and book a table. They can order items and have much more fun.
